THE HOT LIST 2023

Husqvarna®

REMOVE, PREPARE, AND REFINE FLOORS

WIDER OPTIONS. DEEPER EXPERTISE.

Husqvarna offers methods to remove, prepare and refine floors. Our wide range of floor scrapers, scarifiers, grinders, diamond tooling and chemicals enable contractors to find the best, functional and efficient flooring solution for their project.

www.husqvarnaconstruction.com

Welcome

The ARA Show™ 2023 will feature more than 650 exhibitors with products and services on display in the Orange County Convention Center North/South Building in Orlando.

That's a lot to see over the course of the 19.5 hours the trade show floor is open, including 9:30 a.m. to 5 p.m. on Monday, Feb. 13; 9 a.m. to 5 p.m. on Tuesday, Feb. 14; and 9 a.m. to 1 p.m. on Wednesday, Feb. 15.

The Hot List is designed to help guide you when looking for what's new in Orlando as this latest edition of our annual supplement to *Rental Management* features products and services from The ARA Show 2023 exhibitors that have not been seen on the trade show floor before. Some of the products are redesigned or new models that include enhancements to deliver an improved level of performance.

To qualify for *The Hot List*, products — new, enhanced or redesigned — must be available at The ARA Show for the first time. There are more than 150 products and services listed this year and they were selected from

those submitted by The ARA Show exhibitors to *Rental Management* for consideration.

The participating company must be the manufacturer or distributor of the products. Products with only cosmetic changes, new packaging or graphics are not eligible to make the list.

Products in *The Hot List* are grouped according to the area of the exhibit floor where the company is located — Construction, General Tool and Event — with the exception of those offering software products or new services, which are placed together in alphabetical order by company name on separate pages, including booth numbers to make it easy for you to find them.

The Hot List also includes The ARA Show schedule and lists of those offering a Show-Only Special, first-time exhibitors and those whose products are part of *The Hot List*. We hope you find this special issue of value while looking for new items in Orlando to add to your rental inventory.

— *Editors of Rental Management*

The Hot List: New Products at the Show is a special supplement produced by *Rental Management*, the official publication of the American Rental Association.

Trade show floor to include more than 650 exhibitors

Buying and selling begins on Monday, Feb. 13

When the trade show floor opens at 9:30 a.m. on Monday, Feb. 13, at the Orange County Convention Center North/South Building in Orlando, The ARA Show™ 2023 attendees will find more than 650 exhibitors ready to do business.

Over the three days — Monday from 9:30 a.m. to 5 p.m., Tuesday from 9 a.m. to 5 p.m. and Wednesday from 9 a.m. to 1 p.m. — rental stores will have 19.5 hours to make deals, see what’s new from manufacturers and suppliers, and find the more than 80 first-time exhibitors at the show.

For the latest list of The ARA Show exhibitors as well as booth

numbers, click on “Find Exhibitors” in the drop-down menu under “Register & Plan” online at ARAShow.org.

All *Rental Management* subscribers also will receive a printed copy of The ARA Show Directory with the February 2023 issue with additional copies of the directory, *The Hot List* and the February 2023 issue of *Rental Management* available at the convention center.

Hundreds of exhibitors are expected to offer a Show-Only Special with discounts and other incentives only available in Orlando. The savings often can offset the cost of a trip to the show.

In addition to the exhibit floor,

The ARA Show provides numerous networking opportunities, including segment-targeted education events on Saturday, Feb. 11; a full day of education with four tracks focused on helping rental stores be more successful in running their business on Sunday, Feb. 12, and several special events, including the Keynote Session featuring Daymond John of “Shark Tank” on Monday morning; the Welcome Reception on Monday from 5 to 6:30 p.m. and the Show Floor Reception on Tuesday from 3:30 to 4:30 p.m.

Other notable chances to mingle with peers include the Young Professional Network Reception on Sunday from 6 to 9 p.m. at | To Page 6

Ole Red at Icon Park, the ARAPAC Reception at Topgolf on Monday from 7 to 9 p.m., the Women in Rental Breakfast on Tuesday morning from 7:45 to 9 a.m., the ARA Foundation Charity Auction and Reception on Tuesday evening from 5 to 6:30 p.m., and ARA's Tuesday Night Event at Universal Studios from 7:30 to 10:30 p.m.

There are several ways to get more information about the show. For example, additional details about all aspects of the show, including hotel accommodations and registration, are available online at ARAShow.org.

In addition, The ARA Show app, sponsored by LBX Co., Maker of Link-Belt Excavators, is a one-stop digital guide to the show. It will be available starting in January and features easy access to all show information. If you have The ARA Show App for 2021, it will automatically update with the new information for 2023.

The ARA Show app will feature:

- Searchable exhibitor directory by company name, products, those offering Show-Only Specials and more.
- Show schedule and maps.
- A customizable schedule with your education sessions, events and other meetings.
- Education session descriptions and handouts.
- Express barcode to claim your badge at select registration locations.
- Updates from ARA, which includes last-minute notifications and changes on site.

You can download The ARA Show app from the Apple App Store or Google Play Store. ♦

HERE FOR ANY JOB. ANYTIME.

Starting with the highest quality of equipment, KATO's CL35 is built to handle the toughest projects and the most rugged terrain. KATO's versatile CL35 Compact Track Loader, meets the needs of any job-site. The CL35 features an operating weight of 7,800 lbs. and is easily trailered to your next jobsite. The CL35 also features a comfortable cabin and responsive pilot controls for a superior operator experience. Additionally, KATO's US-based distributor, Compact Excavator Sales, is a family-owned business that puts customers first. Knowledgeable product experts are always standing by to assist with any service or maintenance issues that arise and our streamlined parts distribution minimizes downtime, keeping projects on schedule. Call today to find out how KATO's superior service can help you achieve your goals.

THE HOT LIST

EXHIBITORS

The products shown on the following pages were submitted for consideration by The ARA Show™ exhibitors and were selected based on the following: The company introducing the product must be an exhibitor at The ARA Show 2023 in Orlando; the company must be the manufacturer or distributor of the product; the product or service must be a completely new product or service to the rental industry or must be redesigned to include new enhancements that deliver a new level of performance. Products with cosmetic changes, new packaging or graphics are not eligible. The product — new, enhanced or redesigned — must be on display at The ARA Show for the first time in 2023.

Current as of Dec. 14, 2022. For the latest list of The ARA Show™ exhibitors as well as booth numbers, click “Find Exhibitors” in the drop-down menu under “Register & Plan” online at ARAshow.org.

Finding ways to **work smart**

The construction segment of the exhibit floor at The ARA Show™ 2023 in Orlando will feature several exhibitors touting new technologies and ways to work smarter. Some of the new offerings include machines that can perform a number of jobs, hydraulic quick couplers that provide attachment selections and an ongoing expansion of electrification as a power source. In addition, many of the newer telehandlers on display now have higher reach and greater capacity. There are more dual-fuel forklift options and tilt bed trailers available as well. A move to offer smaller machines, such as the mini dozer, also is a growing trend among manufacturers.

24/7 Onsite Cameras mobile camera systems

877-411-2471; 247onsitecameras.com

Booth No. 5080

The 24/7 OSC-S Series units from 24/7 Onsite Cameras, Columbia, Ill., are designed for easy deployment, 24/7 uses and advanced analytics with the highest quality, high mega pixel cameras, the company says. Each unit is designed to be self-sufficient and self-report any technical problems it may experience.

AMI Attachments rake

800-556-9452; amiattachments.com

Booth No. 4749

RM
VIDEO

The Ruckus rake from AMI Attachments, Hawkesville, Ontario, Canada, allows the user to change tilt and angle from inside the cab.

The hydraulically powered rake features up to 25-degree angling in either direction, and 28-degree tilt up and down. Tungsten carbide teeth are welded directly to the rotor.

ANA hybrid power

562-450-3570; anacorp.com

Booth No. 3814

The Energy Boss™ hybrid energy systems from Alliance North America (ANA), Henderson, Nev., combines top-line generators with the latest battery technology and highly specialized control systems to decrease fuel consumption, emissions and service, the company says. The product is available in a variety of battery capacity options that can be stacked.

Arrow Material Handling Products fork handler attachment

800-821-7563; arrowmhp.com

Booth No. 5408

The fork handler attachment from Arrow Material Handling Products, Lenexa, Kan., allows for single forks or multiple pairs to be moved easily and safely by the forklift operator, the company says. The

attachment mounts onto the forklift truck with pockets and safety chain. The product is designed with beveled edges to help separate multiple forks to be transported and mounted.

BOMAG Americas battery-powered tamper

803-337-6722; bomag.com

Booth No. 4001

The battery-powered BT-60 E tamper from BOMAG Americas, Ridgeway, S.C., can be started at the push of a button in any weather, achieving the same performance as a gas tamper, the company says. The tamper comes standard with a maintenance-free motor that is fully protected against shocks and dirt by its casing.

Bravi Platforms safety device

855-704-7342; bravi-platforms.com

Booth No. 4692

The Small-E inspection safety device from Bravi Platforms, Castelfidardo, Italy, is custom-made and certified

to be used on the Leonardo HD platform. The 70-lb. product can be added on and removed with quick-release fasteners. A movable top control box comes standard with the accessory and can be placed on the extra deck.

Canycom USA walk-behind concrete buggy

888-450-0381; canycomsales.com

Booth No. 4671

The zero-emission SC30 electric walk-behind concrete buggy from Canycom USA, Seattle, is 29 in. wide and features a 90-degree dump angle, hydraulic dumping system and a payload capacity of 990 lbs.

BilJax tent floor system

800-537-0540; biljax.com

Booth No. 3426

The TF2100 low level ground level tent floor system from BilJax, Archbold, Ohio, is designed to integrate with clearspan structure tents. The system is adaptable for use in difficult, multi-terrain areas. The slide-and-connect cassette flooring system requires fewer pieces and parts, and is equipped with built-in tie downs and tent upright shoring points.

BOSS Industries air compressor

800-635-6587; bossair.com

Booth No. 3892

The Bullet 70G gas

engine-driven rotary screw air compressor from BOSS Industries, La Porte, Ind., can

produce 70 cfm and 100 psi continuously with plenty of reserve, the company says. The compressor is available as either a skid- or wheel-mounted unit.

CONSTRUCTION

PRODUCTS

Case Construction Equipment dozer loader

866-542-2736; casece.com

Booth No. 4870

The 114-hp Minotaur DL550 compact dozer loader from Case Construction Equipment, Racine, Wis., weighs more than 18,000 lbs. It delivers dozing and grading along with site loading capabilities and compatibility with hundreds of attachments. A chassis-integrated C-frame with six-way dozer blade hydraulically couples into both the chassis of the machine as well as the attachment coupler.

Construction Robotics modular gripper

585-742-2004; construction-robotics.com

Booth No. 5843

The material unit lift enhancer MULE ML150 from Construction Robotics, Victor, N.Y., has a new modular gripper to increase versatility and weightless lifting for a variety of industries. The product is fully adjustable to pick anything from 0.125 to 18 in. in diameter weighing up to 150 lbs.

Crown Construction Equipment concrete saw

204-831-8468; crownequip.com

Booth No. 5213

The TCS walk-behind concrete saw from Crown Construction Equipment, Laredo, Texas, is equipped with a 14-in. blade and has a maximum depth of 4.75 in. A precision screw feed and cutting guide will provide an accurate cut, the company says. The cutter comes standard with a Honda GX240 engine.

CTE North America Corp. crawler

860-656-9077; ctelift.com/na

Booth No. 5276

The Traccess 160/51 compact crawler boom lift from CTE North America Corp., Willington, Conn., has a working height of 51 ft. and an outreach of 24 ft. at the full 550-lb. basket capacity. Extendable tracks and outriggers make it easy to set up in tight job sites, the company says.

Doosan Industrial Vehicle America Corp. lift trucks

678-745-2227; doosanlift.com

Booth No. 4021

The D-9 series of diesel lift trucks from Doosan Industrial Vehicle America Corp., Buford, Ga., feature 14 load capacity ranges from 4,000 to 20,000 lbs. The trucks offer state-of-the-art technology and adjustments can be made based on operator input and conditions.

DryAir Manufacturing Corp. light tower option

306-275-4848; dryair.ca

Booth No. 3047

The 650 GTS GreenThaw™ System with light tower option from DryAir Manufacturing Corp., St. Brieux, Saskatchewan, Canada, combines a ground thaw unit and a light tower. The light tower features a 24-ft. mast, winter-rated LEDs, 188,000 lumens and 72,000-hour LED life.

ELGi Compressors USA air compressor

704-523-4123; elgi.com

Booth No. 5806

The D185T4F portable air compressor from ELGi Compressors USA,

Charlotte, N.C., provides 185 cfm at 100 psi when using a Kohler KDI diesel engine. ELGi has approved the use of EN15940-compliant hydrotreated vegetable oils (HVOs) to give companies the option to use an alternative, eco-friendly fuel.

Enovation Controls display

918-317-4100;

enovationcontrols.com

Booth No. 3878

The OpenView S70 full-color configurable display from Enovation Controls, Tulsa, Okla., integrates engine, transmission and diagnostic information into an easy-to-read operator interface, the company says. The display can be viewed in full sunlight and contains an optically-bonded LCD inside its IP65-rated case to be safe to use in most weather environments.

EASYLIFT RENTAL SERIES

The new **EASYLIFT 172-60AJ**

- 172' Height / 60' Outreach
- Fit thru double doors
- Super-low ground pressure
- Hybrid Li-On + Diesel

**TALLEST SPIDER LIFT
IN NORTH AMERICA**

Sales / Re-Rental / Service

EASYLIFT ATRIUM LIFTS FEATURES

- ✓ 20 models from 40' to 172'
- ✓ Tracked and wheeled units
- ✓ Best horizontal outreach in class
- ✓ Super low ground pressure
- ✓ Super slim; Fits thru any door
- ✓ Standard 12Volts electrical system
- ✓ Lightest tracked lifts on the market
- ✓ Heavy duty thick protection covers
- ✓ Amazing departure angle to climb and load any hill or trailer
- ✓ Long travel outriggers
- ✓ Available in true hybrid version with gas /diesel and Lithium battery
- ✓ Many compatible parts from Genie, JLG and Skyjack

**THE fastest growing brand
of tracked lifts in North America**

Epiroc USA drum cutter

413-627-8844; epiroc.us

Booth No. 5263

The VC 1400 drum cutter from Epiroc USA, Broomfield, Colo., gives exact trenching widths and depths without having to move side to side. The product has no greasing points and a pro bracket with safe hose guidance.

Felling Trailers drop deck trailer

320-352-5239; felling.com

Booth No. 5443

The Pan "Gravity" tilt trailer from Felling Trailers, Sauk Centre, Minn., uses gravity and a center pivot point for tilting the trailer bed. Modifications have been made to the trailer's locking mechanism, lighting, license plate mount position and location.

FODS trackout mats

844-200-3637; getfods.com

Booth No. 4895

The trackout mats from FODS, Englewood, Colo., feature a proprietary mat design that works to remove mud and sediment from the user's vehicle tires without damaging the tire or the ground's surface. The U.S.-made product is reusable and recyclable.

Frost Fighter heater

888-792-0374; frost-fighter.com

Booth No. 2674

The 7.5-hp IHS1000 heater from Frost Fighter, Winnipeg, Manitoba, Canada, produces 50 percent more airflow than the standard IHS700, the company says. The unit will supply 8,000 cfm with a maximum static pressure 6 in. of water column (wc). The machine

features a selectable three-speed fan control allowing the user to customize the airflow and the amount of heat being delivered to a job site.

Genie boom lift

425-881-1800; genielift.com

Booth No. 4247

The S[®]-60 FE indoor/outdoor, rough-terrain telescopic boom lift from Genie, Redmond, Wash., offers reduced emissions and a 60-ft. platform height. The boom can work a full day on a single charge in electric mode and more than one week on a single tank of fuel in hybrid mode.

Harford Excavator Attachments hydraulic quick coupler

727-222-6004; harfordattachments.com

Booth No. 5283

The V2 fully hydraulic quick coupler from Harford Excavator Attachments, Clearwater, Fla., is designed and manufactured by the company for 12- to 14-ton excavators. The product features one-switch operation and built-in safety indicators to ensure secure attachment connections from within the cab.

Innovativ Hoisting inclined material lift

860-969-4477; innovativ-hoisting.com

Booth No. 5275

The Junior 50 inclined material lift from Innovativ Hoisting, Willington, Conn., provides a reach over 50 ft. and a 400-lb. load capacity. The carriage can move loads along the rail at up to 150 ft./min., giving it a 20-sec. travel time from bottom to top.

InterQuip mini dumper

866-923-6579; interquip.us

Booth No. 3074

The QUADro mini dumper from InterQuip, Norwalk, Conn., features hydrostatic braking. The compact size of the large-capacity 990-lb. skip enables the machine to fit in tough-to-reach areas, the company says. The machine is equipped with squeeze-and-go controls.

JCB battery-powered dumpster

912-447-2000; jcb.com

Booth No. 4207

The HTD-5E electric dumpster from JCB, Pooler, Ga., is offered as a high-tip, ride-on model and is capable of carrying up to 1,102 lbs. The addition of an electric drive allows the machine to be used indoors as it produces low noise and zero exhaust emissions. The machine has a maximum two-hour charging time.

KATO/Compact Excavator Sales mini excavator

800-538-1447; katoces.com

Booth No. 3870

The 9V5 mini excavator from KATO/Compact Excavator Sales, Elizabethtown, Ky., is an ultra-mini zero tail swing excavator equipped with a roll down roll-over protective structure (ROPS). The machine can fit through a standard yard gate and doorways. The machine includes expandable tracks, improved weight distribution and a larger front blade.

Koshin America Corp. trash pump

847-885-1570; koshinamerica.com

Booth No. 3807

The KTD-100S 4-in. diesel trash pump from Koshin America Corp., Schaumburg, Ill., includes a 1B150E Hatz diesel engine with a 1.31-gal. gas tank that allows for longer runtimes, the company says. The product has an electric start with a maximum head of 97 ft., maximum 42 psi and 600 gpm. A wheel kit is included and pre-installed.

Kubota Tractor Corp. compact excavator

888-458-2682; kubotausa.com

Booth No. 3826

The KX030-4 compact excavator from Kubota Tractor Corp., Grapevine, Texas, will replace the current KX71-3S in the company's KX excavator lineup. The product features a larger cab with an easy to access diverter valve and third line return.

Land Pride combination bucket

888-987-7433; landpride.com

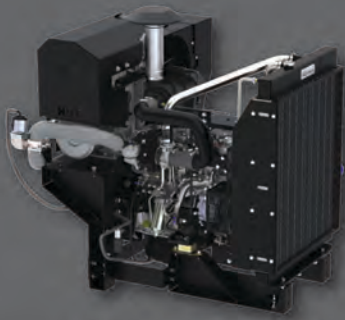

Booth No. 3630

The CB10 combination bucket from Land Pride, Salina, Kan., comes in 60- and 72-in. widths. It allows the user to dig, scrape, doze and grab material. Serrated teeth on the edges allow the bucket to clamp down on solid objects firmly. The bucket has a 3,000-lb. clamping force at 2,250 psi.

LHD Machinery wheeled buggy

888-543-7472; lhdmachinery.com

Booth No. 3078

The LHD 5500 side dump wheeled buggy from LHD Machinery, Cicero, Ind., allows operators to use a wheeled unit to offload material in any direction. The machine features a rear pivoting axle and high-strength powder-coated steel construction.

Lind Equipment power box

877-475-5463; lindequipment.net

Booth No. 3659

The on-site power distribution box from Lind Equipment, Buffalo, N.Y., is designed and built in Canada for modern job sites, the company says. The user can plug in tools and charge devices simultaneously. Covered side pockets keep devices protected from the weather and off the ground. The product has multiple outlets available.

Link Lock safety chain adjustment system

801-772-0266; linklock.net

Booth No. 5838

The Link Lock™ bolt-on version trailer safety chain adjustment system from Link Lock, Alpine, Utah, adjusts the length of the chains to fit any tow vehicle. The product meets the safety chain requirements for all 50 U.S. states. The system is available in weld-on versions for 0.3125 in. chain rated 18,800 gross vehicle weight rating (GVWR) and 0.375 chain rated 26,400 GVWR.

M.E.S.O. maintenance services

330-853-1029; mesoinc.net

Booth No. 5831

The maintenance services from Mobile Equipment Service Options (M.E.S.O.), East Liverpool, Ohio, are available for construction and industrial equipment, trailers and truck fleets.

The services are designed to minimize downtime and can provide remote inspection and remote diagnostics along with personalized asset reports.

Magni Telescopic Handlers telehandler

908-280-8899; magnith.com

Booth No. 2677

The TH 5,5.19 P fixed telescopic handler from Magni Telescopic Handlers, Roselle, N.J., is part of a line of eight models with lift heights from 25 to 79 ft. and capacities from 9,900 to 13,200 lbs. The TH 5,5.19 has a 12,100-lb. lifting capacity and a lifting height of 61 ft. 8 in.

Manitou North America telehandler

262-338-7536; manitou.com

Booth No. 3463

The 625e telehandler from Manitou North America, West Bend, Ind., has a machine height of 6 ft. 3 in., and a width of 5 ft. 9 in. The machine has zero emissions and low noise. The electric telehandler has a lifting capacity of 5,000 lbs. and a maximum lifting height of 19 ft. 2 in.

MEC Aerial Work Platforms all-electric scissor lift

559-842-1532; mecawp.com

Booth No. 4682

The 1,235-lb. NANO10-XD all-electric scissor lift from MEC Aerial Work Platforms, Kerman, Calif., features a platform height of 10 ft. and is 63 in. tall with no folding rails. The machine comes with a standard Xtra Deck to get through 2-ft.-by-2-ft. ceiling grids and hard-to-reach areas.

Metaltech stairs

450-681-6440; metaltech.co

Booth No. 2681

The Metaltech Smartstairs™ aluminum temporary construction stair system from Metaltech, Laval, Quebec, Canada, is telescopic, modular and reusable. The stairs can be adjusted to different floor heights. The product can be installed in less than 30 minutes and no tools are required.

Michigan Pneumatic Tool demolition hammer

800-521-8104; michiganpneumatic.com

Booth No. 3050

The MP-MOTOC-375 demolition hammer from Michigan Pneumatic Tool, Romulus, Mich., maintains strict tolerances and specifications to ensure compliance with various regulations for bridge renovation and demolition work in both Canada and the U.S., the company says. The 18.5-lb. tool has a 4-in. stroke, a 0.50-in. air inlet thread, and 38-cfm average air consumption.

Movex Innovation mini dozer

866-533-0376; movexinnovation.com

Booth No. 5280

The mini dozer M-48 from Movex Innovation, Shawinigan, Quebec, Canada, can be used for cleanup operations under conveyor belts in above-ground and underground mining, ore crushing and concentration plants. The machine also can be used for tunnels, box culverts and drainage systems.

National Flooring Equipment scraper

800-245-0267; nationalequipmentdirect.com

Booth No. 3835

The 465-lb. all-electric Rogue walk-behind scraper from National Flooring Equipment, Brooklyn Park, Minn., features precision steering and reaches speeds up to 150 ft./min. The product has a fully adjustable blade angle at the touch of a button. The scraper has removable weight to help with transporting the machine up and down stairs, the company says.

Noblelift North America lifts

847-595-7100; nobleliftna.com

Booth No. 4288

The SC Series scissor aerial work platform from Noblelift North America, Des Plaines, Ill., provides automatic walking, vertical lift and platform extension functions and can be used indoors and outdoors. Operators can drive, steer and lift while on the platform and the chassis is equipped with a drawer electrical box.

NoRamp Trailers storage containers

574-206-1331; noramp.com

Booth No. 5470

The portable storage containers from NoRamp Trailers, Granger, Ind., are designed for use with past and present NoRamp Trailers. The containers provide job-site storage for supplies, tools and other storage or shelter needs. The containers come in 16- and 20-ft. lengths.

Probst grab clamp

952-226-6400; probst-handling.us

Booth No. 5386

The Quick Clamp/FTZ-MULTI mechanical grab clamp from Probst, Franksville, Wis., can be used for gripping standard concrete elements and natural stones. Gripper options are available, including a rock gripper, rubber gripper clamp and retaining wall gripper. Each gripper option has a 3,300-lb. lifting capacity.

Progress Solar Solutions charger

704-526-9691; progresssolarsolutions.com

Booth No. 3089

The PSS mobile electric vehicle charger from Progress Solar Solutions, Raleigh, N.C., folds down for towing by normal light-duty vehicles and can be scaled up on solar and batteries to support charging of several vehicles, the company says.

Quick Headers masonry shoring support system

801-675-5572; quickheaders.com

Booth No. 5090

The Quick Headers masonry shoring support system from Quick Headers, Ogden, Utah, includes galvanized steel beams that range in sizes from 2 to 16 ft. in length and eliminate traditional wood bucks framing, the company says. The patented masonry steel beams are removeable and reusable.

RICE Hydro pipeline chlorinator

775-885-1280; ricehydro.com

Booth No. 4415

The pipeline chlorinator patent-pending pump from RICE Hydro, Carson City, Nev., is capable of chlorinating water in parts per million (ppm) in addition to pressure testing new or existing water lines. The unit will support water jurisdictions in the effort to monitor line viability and water quality as it relates to chlorination.

Ring-O-Matic vacuum excavation

800-544-2518; ring-o-matic.com

Booth No. 4050

The 550 Jet Vac from Ring-O-Matic, Pella, Iowa, is equipped with advanced filtration, increased noise reduction and reduced maintenance for enhanced productivity. The product is outfitted with one of the largest water pumps in its class, the company says.

PRODUCTS

Sakai America auto brake assist system

800-323-0535; sakaiamerica.com

Booth No. 4747

The Guardman auto brake assist system from Sakai America, Adairsville, Ga., detects objects or personnel behind the roller and only in cases of imminent collision stops the machine without operator intervention. The safety system works through dust/steam and the intelligent controller compensates for roller speed and day or night visibility.

Shocker Positive Air Shutoff Systems/Headwind Solutions diesel solution

780-672-2775; headwindsolutions.ca

Booth No. 5839

The ShockerEDGE diesel runaway solution from Shocker Positive Air Shutoff Systems/Headwind Solutions, Camrose, Alberta, Canada, is designed to control diesel engine runaway, backfiring and flooding of spark-ignited engines when exposed to airborne hydrocarbons (gas). The engine is turned off before a problem can occur.

Simpson Cleaning a div. of FNA Group pressure washing system

833-362-7368; simpsoncleaning.com

Booth No. 4215

The Mini Brute trailer hot water mobile high-pressure washing system from Simpson Cleaning a div. of FNA Group, Pleasant Prairie, Wis., features a Honda GX390ES electric start engine, direct-drive industrial Triplex General Pump™, 7-gal. diesel fuel tank and a 16-in. coil, and Wayne burner.

Stellar Industries hoist

800-321-3741; stellarindustries.com

Booth No. 3678

The NXT18 Hooklift 18,000-lb. capacity hoist from Stellar Industries, Garner, Iowa, has a 35.63/54-in. hook height and rectangular style secondary jib. The hoist has an approximately 7.5-in. lost load height and provides a lower vertical center of gravity and the ability to accommodate down to 4-in. sub-frame heights.

Street Works trencher

516-404-6311; streetworksus.com

Booth No. 5865

The TigerCat T726G street trencher from Street Works, Taunton, Mass., is specially designed to cut trenches of varying widths and depths in asphalt, concrete and steel-reinforced road surfaces.

Tempest Technology A Leader Group Co. dust containment kit

559-277-7577; tempest.us.com

Booth No. 3886

The 24HD high pressure, high cfm dust containment kit from Tempest Technology A Leader Group Co., Fresno, Calif., uses the Tempest 24-HD blower combined with smooth bore ducting and dust collection bags for complete dust and smoke removal. Air movement is measured at 12,867 cfm.

Thunder Creek Equipment trailers

866-535-7667; thundercreek.com

Booth No. 4059

The multi-tank fuel and service trailers from Thunder Creek Equipment, Pella, Iowa, are designed to legally transport bulk diesel on the road without requiring drivers to maintain a CDL or HAZMAT endorsement. The trailers are available in 460-, 690- and 920-gal. capacities.

Tifco Industries testing kit

800-868-4326;
tifco.com

Booth No. 5514

The Bluetooth HydraTest® universal pressure testing kit from Tifco Industries, Cypress, Texas, features Bluetooth wireless capabilities, turning any iPhone or Android mobile phone into a hydraulic pressure gauge, the company says. The U.S.-made system allows direct push to connect connection to more than 100 original equipment manufacturer (OEM) brands test ports using a single pressure testing kit.

TireSocks mesh safety product

720-323-0208; tiresocks.com

Booth No. 5010

The DropShields™ safety product from TireSocks, Englewood, Colo., features a heavy-duty mesh design

that keeps workers safe from dropped tools and other parts. A tight weave provides durability to catch heavier items like drills and hammers, and also allows for the capture of smaller parts like nuts and bolts, the company says.

TK Equipment power trowel

956-796-9411; tkequip.com

Booth No. 5313

The 184-lb. WBT36-GH5.5 power trowel from TK Equipment, Laredo, Texas, is equipped with a 4.8-hp Honda motor. The trowel has a centrifugal clutch.

Toro utility loader

952-888-8801; toro.com

Booth No. 4226

The Toro e-Dingo® 500 compact utility loader from Toro, Bloomington, Minn., features a HyperCell Power System®. The machine has a rated operating capacity of 515 lbs. and a 6.5-gpm hydraulic flow. The battery management system allows for all-day run times.

Trelleborg Wheel Systems Americas tires

800-948-8473; trelleborg.com

Booth No. 4280

The Brawler HPS PROSOFT solid tires from Trelleborg Wheel Systems Americas, Wakefield, Mass., are engineered to reduce vibration and improve the driving experience of telehandlers and compact wheel loaders.

877-978-7463; trimeusa.com

Booth No. 5475

The Trime E1200 LED electric light tower from Trime US, New Castle, Del., is constructed of heavy-duty galvanized steel with industrial powder-coat paint inside and out. The tower features four high-efficiency LED heads equaling 1,280W and illuminates a 48,000-sq.-ft. area.

TVH joysticks

913-829-1000; tvh.com

Booth No. 4814

The U.S.-made joystick from TVH, Olathe, Kan., is manufactured to the highest standards and tested individually on the company's equipment, the company says.

UP Equip lift

844-873-7847; upequip.ca

Booth No. 2687

The 7,165-lb. Easy Lift 77-40AJ lift from UP Equip, Vercheres, Quebec, Canada, offers 77 ft. of working height and 40 ft. of unrestricted horizontal reach with 500 lbs. in the basket. The overall height when folded is 79 in. and the machine fits through a 35-in.-wide opening. The machine has a total length of 19 ft. 5 in.

Virnig Manufacturing brush cutters

800-648-2408; virnigmfg.com

Booth No. 5056

The V20 mini-skid-steer brush cutters from Virnig Manufacturing, Rice, Minn., are designed to cut down up to 3-in.-diameter trees and clear grass and brush for a maintained finish. The cutters are equipped with three 0.50-by-4-in. updraft blades and a 100- to 150-lb. flywheel. Both 42- and 48-in. widths are available.

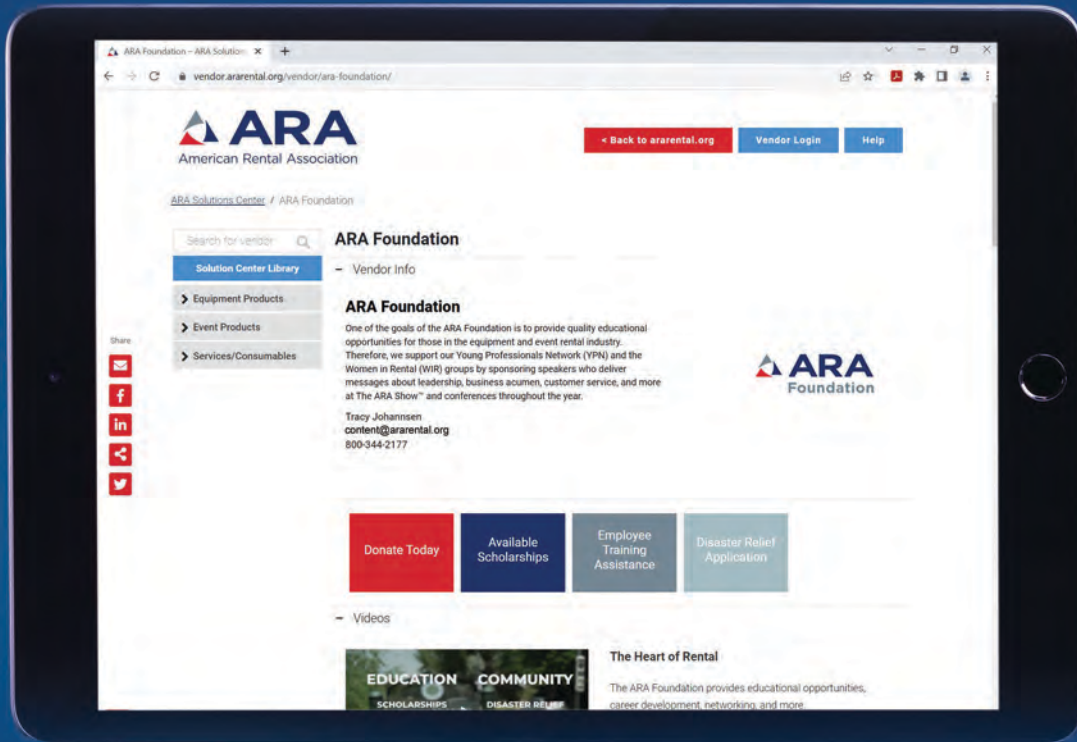

WIKA Mobile Control capacity indicator

717-217-2200; wika-mc.com; Booth No. 1781

The qSCALE I2 TH rated capacity indicator (RCI) for telehandlers from WIKA Mobile Control, Chambersburg, Pa., can be used with original equipment manufacturers (OEMs) and aftermarket telehandlers. The system features a 4.3-in. color graphic display that provides the operator with actual and allowable load, boom length, boom angle and more.

GENERAL TOOL

PRODUCTS

Improving job sites and safety

New types of floor scrubbers, lighting and dust suppression equipment are just a few of the items that exhibitors will be highlighting at The ARA Show™ 2023 in Orlando. Portable video inspection cameras for drain lines feature competitive battery technology, while cordless tool solutions continue to be developed by manufacturers to help eliminate gas-powered products on the job site. Another trend among general tool manufacturers concerns improved noise reduction for generators and machines. In addition, manufacturers are offering more industrial products that can be turned into dust collection kits specifically for equipment rental customers.

Armorgard storage unit

877-794-2848; armorgardusa.com

Booth No. 2177

The Forma-Stor flat-packed storage unit from Armorgard, Cambridge, Mass., can be built in 10 minutes, the company says. The product is designed with a self-engaging T-Latch lock, anti-tamper joins and galvanized panels. The storage unit is available in two sizes.

BOS CS smart locks

844-267-3757; boscs-usa.com

Booth No. 1249

The iLOQ's smart locks, distributed by BOS CS, Tampa, Fla., are battery-free and require no additional power source. The locks are unlocked using the power from an NFC-enabled iPhone or Android smartphone. Access rights are programmed using iLOQ's cloud-based SaaS platform and sent remotely and in real time to iLOQ's app running on the smartphone.

Brave concrete vibrator

800-822-0295; braveproducts.com

Booth No. 1856

The portable eccentric concrete vibrator from Brave, Rogers, Minn., can be used for on-site vibration of concrete for foundations, walls, columns and slab work. The product also can be used for in-plant vibration during the production of pipes, slabs, beams, double T's, columns and walls.

ClimaTemp Portables air conditioner

844-349-5665; clima-temp.com

Booth No. 1962

The CTW-18 water-cooled portable air conditioner from ClimaTemp Portables, Miami Gardens, Fla., is available in a standard and a CTW-18 HEPA unit for indoor air quality (IAQ) applications. The water-cooled units were designed with an integrated hose kit storage compartment, double-lock stainless-steel quick connectors and a heat exchanger drain valve for removing excess water from the unit for winterizing.

Cyclone Technology industrial cleaning system

480-345-7733; cycloneclean.com

Booth No. 1886

The Cyclone CY5000 series industrial cleaning system from Cyclone Technology, Tempe, Ariz., uses heated, pressurized water with instantaneous recovery to clean horizontal surfaces. A 34-in. cleaning path and infinite variable pressure and speed allows for cleaning up to 20,000 sq. ft./hour of space.

DDM Concut diamond blade

215-530-2423; ddmconcut.com

Booth No. 2475

The Bull Dog diamond blade from DDM Concut, Lilburn, Ga., is available in sizes ranging from 12 to 20 in. in diameter. The blade can be used on a high-speed handheld saw or a low-horsepower walk-behind saw. Applications include reinforced concrete, brick, block and asphalt.

Dri-Eaz/Legend Brands air purifier

800-932-3030; legendbrands.com

Booth No. 862

The Mediclean AP 700 air purifier from Dri-Eaz/Legend Brands, Burlington, Wash., filters out bacteria, viruses, smoke and more. It has a 99.999 percent HEPA filtration of 0.1-0.5 micron particulates and ultra-quiet operation. The product has a 700-cfm variable speed.

Gen-Eye X-POD Plus®

NEW Gen-Pack™
Battery Adapter.
(Battery not included)

Now your customers can inspect drain lines far from a power source. The Gen-Pack battery adapter allows up to 12 hours of remote operation with limited access to power. The Gen-Pack is also sold separately.

But wait, there's more. Your customers can track how far the camera has traveled down the line with the on-screen distance counter. And they can now record on a flash drive or send the recording to their smartphones with the built-in Wi-Fi transmitter.

For more information, visit www.drainbrain.com/XPodPlus, or call the Drain Brains® at 800-245-6200

Eclipse Surface Technologies dustless blaster

800-699-3722; eclipseblast.com

Booth No. 2181

The ECO-100 dustless blaster from Eclipse Surface Technologies, Hatfield, Pa., has been upgraded in two models — ECO-100 PRO and ECO-100 ELITE. The all-steel welded systems can fit onto aerial lifts and scaffolding and into hard-to-reach areas like attics, crawl spaces and basements. Both versions of this combo vapor blaster feature an integrated water pump.

Electric Eel Manufacturing Co. inspection camera

800-833-1212; electriceel.com

Booth No. 1673

The eCAM Ace 2 SL inspection camera from Electric Eel Manufacturing Co., Springfield, Ohio, has a brighter display screen. The product features a new location on the rear of the monitor for the battery cradle and AC/DC power input. The camera has 18V-battery and 12V-AC/DC adapter inputs that should not be used simultaneously.

Eliet USA shredder

412-367-5185;

elietusa.com

Booth No. 1459

The Maestro E-Power battery-

powered compact chipper-shredder from Eliet USA, Pittsburgh, is powered by EGO batteries. The user can click two batteries to use.

Festool USA sander and dust extractor

888-337-8600; festoolusa.com

Booth No. 952

The Planex Easy Surface prep set from Festool USA, Lebanon, Ind., features a 9-in. paint and drywall sander that is paired with an autocleaning HEPA-filtered dust extractor. The product can strip away textured and painted surfaces, sand drywall and cleanse surfaces of daily buildups.

General Pipe Cleaners, A Div. of General Wire Spring, sewer camera

800-245-6200; drainbrain.com

Booth No. 1070

The X-POD Plus sewer camera from General Pipe Cleaners, A Div. of General Wire Spring, McKees Rocks, Pa., includes a Gen-Pack battery adapter, Wi-Fi transmitter and on-screen distance counter. The Gen-Pack lets the user operate the camera system remotely for up to 12 hours. An on-screen distance counter shows how far the camera has travelled down the line.

Great Northern Equipment Distributing roofing tool

800-822-0295; gnedi.com

Booth No. 1655

The patented Shingle Hog roofing tool from Great Northern Equipment Distributing, Rogers, Minn., uses a compressor to tear material off roofs at a rate of 17 to 20 sq. ft./hour. The product is designed to be used on any roof that can be safely walked on.

Hercules Sealing Products replacement cylinders

800-777-5617; herculesus.com

Booth No. 1773

The U.S.-made Bobcat® replacement cylinders from Hercules Sealing Products, Clearwater, Fla., feature hardened chrome-plated rods, cast iron glands with buttress threads, cast iron pistons, grease fittings on both pin eyes, and rod seals rated up to 250 Fahrenheit and 7,250 psi.

Hilti battery-powered saw

800-879-8000; hilti.com

Booth No. 2281

The battery-powered DSH 600-22 cut-off saw from Hilti, Plano, Texas, is powered by Nuron and has no fumes, noise or delays that gas can create, the company says. The saw uses a 22V battery.

Honda Power Sports & Products generator

678-339-2600; honda.com

Booth No. 465

The 59.1-lb. EU3200i generator from Honda Power Sports & Products, Alpharetta, Ga., provides 3,200W of power. The generator also has two-step starting along with remote smartphone control and has run times up to 8.6 hours.

Kent Air Tool Co. d/b/a Katco Tools rivet buster

330-677-8884; ketcotools.com

Booth No. 673

The 23-lb. KT-RB5 rivet buster from Kent Air Tool Co. d/b/a Katco Tools, Kent, Ohio, features 1,560 bmp and is designed to run at 85 psi and work with 90-cfm compressors. The top-trigger air tool allows for multiple working positions and can be used for removing hardened cement in mixer drums and general demolition.

Makinex generator

855-625-4639; makinex.com

Booth No. 1879

The 32kW power generator from Makinex, Mansfield, Texas, contains advanced alternator technology. The generator allows the running of both three-phase and single-phase equipment and can be transported in the bed of a pickup truck or trailer. The generator can fit through a standard doorway.

GENERAL TOOL

PRODUCTS

Makita USA power cutter

800-462-5482; makitatools.com

Booth No. 865

The 80V max (40V max X2) XGFFT® brushless 14-in. power cutter with active feedback-sensing technology (AFT®) from Makita USA, La Mirada, Calif., has the power to cut through various masonry and metal materials with the benefits of a cordless operation. The 14-in. wheel diameter allows for single pass cuts up to 5 in. deep in various masonry and metal materials.

Maxim sod kicker

800-822-0295;

maximmfg.com

Booth No. 1857

The 12-in. sod kicker from Maxim, Rogers, Minn., is environmentally friendly with no gas, oil or noise. The product can remove sod and roots by kicking the cross bar while pushing forward with the handles. The 12-in. blade makes it versatile for various applications, the company says.

MiniTrencher trenching attachment

877-694-0141; georipper.com

Booth No. 1276

The GeoRipper® T/A trenching attachment from MiniTrencher, Webster, N.Y., can be used with the Echo concrete saw and Milwaukee battery-powered demo saw, the company says. The product allows the user to convert their concrete saw into a handheld minitrencher and has self-sharpening chains.

Mi-T-M Corp. inverter generators

800-367-6486; mitm.com

Booth No. 2259

The inverter generators from Mi-T-M Corp., Peosta, Iowa, range from 2,000W up to 7,300W and are equipped with carbon monoxide (CO) detection and auto shutdown if CO levels become unsafe. The 2,000W and 2,500W inverter generator models are compact and have a hand-carry design. The 3,500W inverter has an open frame design.

Norseman collar

780-447-6835; norseman.ca

Booth No. 2158

The QuickGrip patent-pending collar from Norseman, Edmonton, Alberta, Canada, secures to any HVAC unit quickly and efficiently with no tools required, the company says. The product features a wide-mouth buckle funnel to help the user guide the ratchet collar for a precise bite of the buckle that can be adjusted quickly. The collar fits virtually every HVAC unit.

Tsurumi Pump trash pumps

630-793-0127; tsurumipump.com

Booth No. 2446

The HS3.75SL trash pump from Tsurumi Pump, Glendale Heights, Ill., features an impeller with higher vanes and smaller diameter to produce more flow, but less head while still handling water containing sand, solids and debris. Maximum flow increases from 60 gpm to 130 gpm while utilizing a 1-hp motor.

U.S. Jack Co. jack/ power unit

269-925-7777;

usjack.com

Booth No. 1551

The 3-ton-long ram hydraulic jack/power unit model 56064 from U.S. Jack Co., Benton Harbor, Mich., has been enhanced with a new salt bath nitride finish that is black in color on the ram and other exposed steel components. The diffusion process is a thermochemical reaction whereby nitrogen and carbon are diffused into the surface of the steel material.

USA Ratchet spin free ratchet

888-557-5520;

usaratchet.com

Booth No. 1948

The spin free ratchet from USA Ratchet, Piedmont, S.C., has been designed and engineered to make using a ratchet strap easier. The user can open up a spin free ratchet and pull the webbing free from the ratchet using two fingers, the company says. The ratchets are available in 1-, 2-, 3- and 4-in. sizes.

PRODUCTS

Vivax-Metrotech Corp. inspection camera

800-446-3392; vivax-metrotech.com

Booth No. 1862

The vCamDrain inspection camera from Vivax-Metrotech Corp., Santa Clara, Calif., has a wireless Wi-Fi reel controlled by the vCam Mobile Controller app. The reel is supplied with 70 ft. of flexible pushrod capable of inspecting drain lines from 1.5 to 3 in. The system includes a field replaceable 18mm HD camera head and sonde built into the spring.

WerkMaster Grinders & Sanders refinishing machine

604-629-8700; werkmaster.com

Booth No. 1781

RM
VIDEO

The Edge floor prep and

refinishing machine from WerkMaster Grinders & Sanders, Burnaby, British Columbia, Canada, can get close to a wall and eliminate the need to

hand grind edges. The machine works on concrete, wood, stone and terrazzo, and safely removes thinset, VCT glue, carpet glue, epoxy and paint.

Zombiebox International cover and noise barrier

623-670-8100; zombiebox.com

Booth No. 1847

The Z-Hut generator cover and noise barrier from Zombiebox International, Gilbert, Ariz., features noise reduction and weather protection, and fits most portable generators up to 15,000W.

The product can withstand hurricane-force winds and up to 180 lbs. of snowpack.

TWICE AS BRIGHT!!!

NEW FEATURES

Display screen is now twice as bright as comparable cameras in its class.

This NEW feature is an important factor in the clarity and definition of viewing inspection camera images and data. A brighter screen provides better contrast and visibility of inspection making it ideal in bright environments like full and direct sunlight.

Other NEW standard features include:

M18 or compatible) and 12V AC/DC adapter inputs (not at the same time)

- New location on the rear of the monitor for the battery cradle and AC/DC power input
- Unit can handle both 18V battery (Milwaukee®)

- New operating system and menu navigation
- Addition of screen shot function in JPEG format
- On/Off function instead of powering up when plugged in
- Menus in three languages including English, French and Spanish
- Upgraded keypad to reflect new functionality including sonde function operated from keypad rather than being switched on 100% of the time
- Improved battery life from a single charge
- Another Bright Idea from Electric Eel!

The best rental industry news
is always just a click away.

news.ARARental.org

Keeping up with **customer demand**

To help ease the need for additional labor, some of the new equipment available to event rental companies at The ARA Show™ 2023 in Orlando includes tents with fewer parts and quicker installation times as well as machines that can handle labor-intensive tasks. There are different options available for flooring and reception areas, including a system that helps with support and leveling, and synthetic ice panels as well as an increase in items available that add elegance to wedding setups from lace fabric to botanic tabletops.

A1 Tablecloth Co. napkins

800-727-8987; a1tablecloth.com

Booth No. 1830

The Sahara fabric napkins from A1 Tablecloth Co., South Hackensack, N.J., feature a 100 percent polyester fabric and can pair with natural textures like wood and metal, the company says. The fabric comes in 10 colors.

Alloyfold chair

888-368-7713; alloyfold.com

Booth No. 2426

The Trilogy chair from Alloyfold, Tempe, Ariz., stacks vertically up to 10 high. The chair is made of fiberglass reinforced resin and can be used indoors or outdoors.

American Merchandise Resource wine bucket

800-433-8426; amrusa.com

Booth No. 2917

The gold wine bucket with pedestal from American Merchandise Resource, Simi Valley, Calif., is made of aluminum material and features a glossy gold finish. The 8-lb. product also includes an aluminum piece featuring bucket-inspired wine storage with cylindrical tapered body and an elongated pedestal stand.

Anchor Industries high peak tent

800-544-4445; anchorinc.com

Booth No. 2620

The F3HP high peak tent from Anchor Industries, Evansville, Ind., can be installed by one or two people with the help of a 3-ft. step stool. The tents come in 10-by-10-ft., 15-by-15-ft. and 20-by-20-ft. sizes. The tops have the option for a catenary or scalloped curtain.

Andi-Le tables

970-948-6359; andi-le.com

Booth No. 2144

The Blossoms tables from Andi-Le, Basalt, Colo., feature botanic tabletops and verdant green bases with an attached leaf. The 42-in. bar-height tables are available in custom color options. A powder-coat finish provides all-weather durability.

Aztec Tents festival tent

310-347-3010; aztectent.com

Booth No. 2626

The Festival Can-T tent from Aztec Tents, Torrance, Calif., features a cross-cable mast support system that uses fewer parts than other frame tents and reduces installation time, the company says. The frame system utilizes a modular pole system where a 20-ft. span can be achieved with two 9-ft. 3-in. poles and a splice.

B&R Innovations/Block And Roll chandelier stand

516-338-0884; blockandroll.com

Booth No. 3016

The Levi-Lier freestanding chandelier stand from B&R Innovations/Block And Roll, Bethpage, N.Y., is available in black or white. The stand breaks down to three pieces and has a 25-lb. chandelier capacity.

Blue Gator synthetic ice rinks

628-800-6287; bluegatorgroundprotection.com

Booth No. 2741

The Eco-Rinks synthetic ice rinks from Blue Gator, Ocala, Fla., allow for traditional ice sports without the need for cold conditions, water or electricity. The synthetic ice panels are enhanced with a proprietary glide agent and features an interlocking connection system.

Campus Products glass polisher

866-912-3469; cpishine.com

Booth No. 2811

The Stemshine Pro GP5 glass polisher from Campus Products, Oakville, Ontario, Canada, features five brushes to gently wipe away smudges, leaving every glass crystal clear and ready for service, the company says.

Charnecke Tents/CCC Washers tent

800-242-6833; charnecketents.com

Booth No. 2814

The Clear Top Pro Series III pole tent from Charnecke Tents/CCC Washers, Rosholt, Wis., has a clear top to allow for natural light so that guests can enjoy the outdoors while being protected from the elements. The tent comes in sections.

Darnel Fabrics lace fabric

954-929-0085; darnelfabrics.com

Booth No. 1918

The Ilani chemical lace from Darnel Fabrics, Hollywood, Fla., features interlocking lace twigs that form organic honeycomb shapes in the lace fabric. The laces are produced by embroidering a pattern on a delicate textile. They are looped, braided and twisted to give the lace its unique attributes, the company says.

Easy RFID Pro tracking solution

845-709-8885; easyrfidpro.com

Booth No. 2035

The Easy RFID Pro tracking solution from Easy RFID Pro, Poughquag, N.Y., can be used for tents, inflatables, linens and more. A tag is placed on a rental item which can be read by a handheld scanner that provides the user with information about that item.

FloorStak leveling system

+447-841-606-9627; floorstak.com

Booth No. 2835

The FloorStak support and leveling system from FloorStak, Darlaston, UK, uses a combination of interlocking components and screw adjustments so that floors can be erected on sloping or uneven ground.

585-787-9620; kwikcovers.com

Booth No. 2630

The Navy Blue plastic with elastic table covers from Kwik-Covers, Webster, N.Y., feature specially designed elastic edging that holds the table cover in one place, even in wind, the company says. All banquet covers include a 4-in. self-adhesive tape strip along the length of each side for added support.

Kwikool Portable Cooling Systems system with steel frame

713-667-9595; kwikool.com

Booth No. 3034

The KPO25-43 portable cooling system from Kwikool Portable Cooling Systems, Stafford, Texas, is 6 ft. by 6 ft. with a newly added steel frame, giving the model additional protection and stackability. The system runs on a 460V/80-amp three-phase circuit with built-in cam lock connections for electrical hookup.

McCourt Manufacturing chairs

479-242-1098;

mccourtmg.com

Booth No. 2442

The 6.5-lb. Frame Series 5 chairs from McCourt Manufacturing, Fort Smith, Ark., come in custom frame colors. The chairs fold thin for compact storage and are manufactured in the U.S.

Palmer Snyder Furniture cocktail tables

800-535-4519; palmersnyder.com

Booth No. 3020

The PLY-IC™ speed package of cocktail tables from Palmer Snyder Furniture, Conneautville, Pa., includes 20 tables that can be stored in 10 sq. ft. The tabletop and column connect with the company's patented internal connector that locks the tabletop to the column securely. The speed package includes tabletops, columns, bases and a transport cart.

Modern Event Furniture table

877-999-1633;

moderneventfurniture.com

Booth No. 1826

The Fleming cruiser table from Modern Event Furniture (MEF), Montreal, Quebec, Canada, folds flat to save warehouse space. The table is made of stainless steel and comes with an interchangeable, brandable acrylic insert.

PRE Sales resin folding table

800-773-8511; presalesinc.com

Booth No. 1626

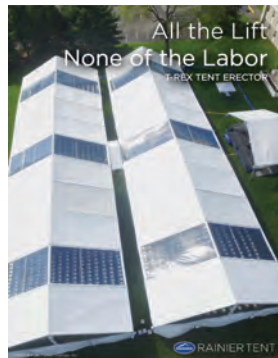

The 72-in. Rhino™ round resin folding table from PRE Sales, San Diego, is built with high-density polyethylene resin and steel legs and frame. The table has been independently tested and rated at 2,400 lbs., the company says. Gravity-locking, wishbone legs are standard, and the tops have a 0.75-in. edge to allow for skirting.

Rainier Industries tent erector

425-251-1800; rainiertent.com

Booth No. 3220

The T-Rex tent erector from Rainier Industries, Tukwila, Wash., can be used for raising pole tents, pulling tops on the ground or in the air. It also can be used as a light tower.

Richwood Imports willow chair and barstool

909-930-6677;

richwood-imports.com

Booth No. 2230

The willow chair and barstool from Richwood Imports, Ontario, Calif., are stackable for transportation and storage and come with multiple color and finish options. The newest colors are drifting natural and drifting black, with a removable rattan seat.

RSS Distributors china

800-233-0175; rssd.com

Booth No. 3001

The Lucia bone coupe translucent porcelainware china from Steelite and distributed by RSS Distributors, Manheim, Pa., honors the craftsmanship and quality of a centuries-old tradition of bone china, the company says.

Seitz, The Fresher Co., upholstery cleaning kit

813-886-2700; seitz24.com

Booth No. 1734

The Viva Lana – Eco-Green upholstery cleaning kit from Seitz, The Fresher Co., Tampa, Fla., features the company's 1-2-3 stain removal agents. The product can be used in an upholstery sprayer/cleaner or a wet vac system.

EVENT
PRODUCTS

Shelter Structures America – Clearspan Tent Structures loader

424-254-9172; shelterstructuresamerica.com

Booth No. 3226

The ER 1000 mini telescopic loader from Everun America, A Div. of Shelter Structures America – Clearspan Tent Structures, Palos Verdes Estates, Calif., is designed for use in smaller spaces. Stake-driving attachments and tent installation tools are available.

SOLUTIONSCMR event furniture

786-456-0104; solutionscmr.com

Booth No. 1429

The mix and match INOUT event furniture from SOLUTIONSCMR, Doral, Fla., features modular designs to create provocative spaces, unique environments and versatile groupings, the company says. The furniture is designed with lightweight, all-weather materials with 15 color options under one unique frame.

Special Event Sales folding bar

780-430-8911; specialeventsales.com

Booth No. 3006

The LED folding bar from Special Event Sales, Edmonton, Alberta, Canada, is constructed of an aluminum frame with polypropylene panels. Included with the bar are two buckets to hold ice or waste, and a full-width speed rail to hold bottles.

TEECO Solutions mildew cleaning system

877-712-9172;
teecosolutions.com

Booth No. 3111

The mildew blast system from TEECO Solutions, Fenton, Mo., harnesses the power of chlorine to clean mildew stains on tent tops, the company says. The system comes with 2 gal. of bleach and two 2-lb. bags of stitch guard to guarantee that any harmful residual bleach or calcium hypochlorite is not left in the stitches or on the vinyl surfaces.

Tentwares Accessory Catalog lights

800-245-7116; tentwares.com

Booth No. 2817

The selectable wattage white LED high bay lights from Tentwares Accessory Catalog, Manchester, N.H., allows the user to make an adjustment on the top of the fixture to select the brightness from 80W to 150W. Mounting can be done with a hook mount with locking bolt and safety cable.

New technologies always are **moving forward**

As technologies improve and expand, equipment and event rental stores have more options to provide efficiencies and are seeing more demand for devices to be connected with data sharing and asset intelligence information. Rental stores also prioritize preventing loss from theft or misplaced assets, an ongoing challenge where technology improves upon asset tracking. The ability to view advanced reports and live dashboards via mobile applications is becoming a necessity and many of those who provide rental-specific software will be highlighting a variety of upgraded or new software systems that aim to meet that demand at The ARA Show™ 2023 in Orlando.

Alert Rental Software mobile application

844-564-6334; alertrental.com

Booth No. 1850

The Rover mobile app from Alert Rental Software, Colorado Springs, Colo., can be used from a phone or tablet to find tickets, assign fixed assets, change quantities and meter readings and add rental and sales items. When changes are complete, an updated ticket can be emailed to the user's customer.

Baseplan Software Group mobile application

702-410-8600; baseplan.com

Booth No. 3880

Baseplan's Mobility App (BMA) from Baseplan Software Group, Houston, streamlines activity, providing real-time information and increasing productivity, the company says. The product encompasses business aspects including rental, inspections, transport and service.

SOFTWARE/SERVICES

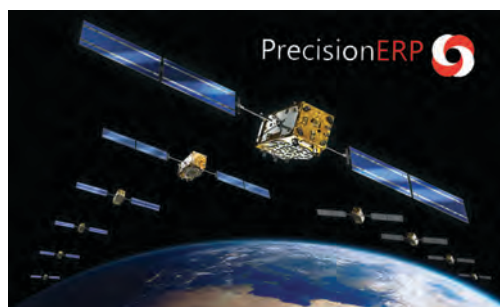

PRODUCTS

Cojali USA diagnostic software

305-960-7651; cojaliusa.com

Booth No. 5383

The Jalest MHE 23.1 software solution from Cojali USA, Miami, can perform diagnostics in forklifts, articulated boom lifts, telescopic handlers, scissor lifts, material handlers and more. The product is designed to help the technician through the repair process, gaining access to extensive and continuously updated coverage, technical information and repair guides.

DMC Strategic IT Co. solution

480-409-4253; dmcstrategicit.com

Booth No. 5486

The PrecisionERP software solution from DMC Strategic IT Co., Phoenix, allows the user to use one system to run an entire business and have access to consolidated organization-wide operational and financial reporting in real-time. The system can track the entire lifecycle of a customer, including opportunities, quotes, sales, invoices and service and support requests.

FleetNow software solutions

833-476-6835; buyfleetnow.com

Booth No. 5534

The tech products from FleetNow, Cleveland, include FleetNow Connect, a lead generation platform; FleetNow Direct, an E-commerce platform; and FleetNow Inspect, a digital inspection solution. The digital inspection app was created specifically for the heavy equipment industry and is fully customizable.

Geoforce tracking device

972-546-3878;

geoforce.com

Booth No. 5837

The GT2h tracking device from Geoforce, Plano, Texas, provides industrial-grade

asset tracking with optimized coverage across both cellular and satellite so the user can track any asset anywhere it goes. The product can leverage two-way

communication suited for critical data and alerts along with remote device access and configuration.

Infor SyteLine – Quadkor software solution

619-246-8305; quadkor.com

Booth No. 3696

The SyteLine Equipment Rental and Service ERP from Infor SyteLine – Quadkor, San Diego, features a suite of CRM,

sales, service, rental, inventory and enterprise financial management. The product can meet individual needs and/or integrate with any third-party applications.

Information Integration Group software solution

818-956-3744; iigservices.com

Booth No. 2363

The AcuRental powered by Acumatica Cloud ERP software solution from Information Integration Group, Glendale, Calif., allows companies to see original cost, revenue generated and any expenses incurred over the life of the equipment. Costs can be posted from service work and repair orders, fixed asset module, project transactions or crew labor entries.

integraRental Software mobile application

563-332-5030; integrarental.com

Booth No. 1475

The Unrivaled Business Mobility mobile application from integraRental Software, Bettendorf, Iowa, allows businesses to create and edit quotes, reservations and rentals from any internet-connected mobile device. The device allows the user to decide when and where business is done, the company says.

InTempo Software payment terminals

800-950-2221; intemposoftware.com

Booth No. 4270

The Dejavoo payment terminals from InTempo Software, Springfield, Mass., give rental stores a secure way to process credit and debit cards at a rental counter. Customers can tap, dip or swipe their cards to pay. Operators don't have to re-key in the purchase amount after creating the original contract.

JK Data Systems rental software

800-743-1943; rentalsystem.com

Booth No. 2573

The cloud-based Xpress rental management system from JK Data Systems, Tampa, Fla., can control inventory, contracts, reservations and quotations. The product can be used to manage customer accounts, payments and history, and track inventory in calendar format.

MCS Rental Software mobile application

205-969-9469; mcsrentalsoftware.com; **Booth No. 3070**

The rental software mobile apps from MCS Rental Software, Birmingham, Ala., allows the user to optimize driver routes, capture electronic signatures and obtain real-time driver status updates. The app allows the user to streamline equipment picking and workshop maintenance.

SOFTWARE/SERVICES

PRODUCTS

Pedigree Technologies tracking tags

800-470-6581; pedigreetechnologies.com

Booth No. 4832

The Bluetooth tracking tags from Pedigree Technologies, Fargo, N.D., are small, weatherproof, long battery-life devices that are installed on tools, ladders, light equipment, bins and iron attachments. The tags will connect and sync with truck and trailer GPS devices, Pedigree applications on handsets and tablets, and more.

Point of Rental Software data solution

844-943-7368; pointofrental.com

Booth No. 2063

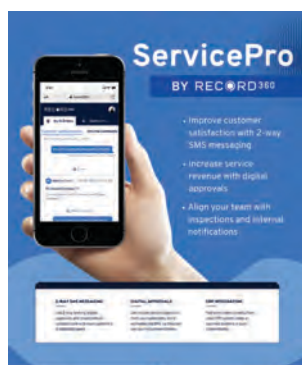

The Essentials' Smart Suggestions solution from Point of Rental Software, Fort Worth, Texas, uses the power of machine learning to offer additional rental or sale items with equipment rentals in a company's online storefront. The product takes millions of rentals around the world, identifies what items tend to get rented together and makes relevant suggestions when a customer rents an item online.

PREXA 365 – Rental Management Software solution

289-805-2631; prexa365.com

Booth No. 1578

The rental management software from PREXA 365 – Rental Management Software, Mississauga, Ontario, Canada, is powered by Microsoft Dynamics. The system delivers workflows to automate processes such as rental contracts and invoicing, inventory management, equipment tracking, preventative maintenance and more.

Record360 mobile platform

206-489-3290; record360.com

Booth No. 2275

The ServicePro mobile platform from Record360, Walnut Creek, Calif., allows service teams to manage their work orders in one place. The user can text customers to send them inspections and quotes for instant approval. The product also provides consistent updates on repair status.

Rental Dynamics rental management system

832-776-7495; rentaldynamics.com

Booth No. 5808

The rental management system from Rental Dynamics, Conroe, Texas, is on Salesforce, which utilizes the power of customer relationship management and rental capabilities of Rental Dynamics. The system provides for the use of quotes, contracts, service requests, preventative maintenance, accounts receivable and more.

RigER rental software

432-695-4033; riger.us

Booth No. 2990

The equipment rental software from RigER, Aubrey, Texas, allows the user to digitize the management of oilfield equipment. The software provides equipment dispatching, employee time tracking, rental fleet repair data and inventory management.

Sycor mobile application

412-526-3330; sycoramericas.com/rental

Booth No. 5586

The Sycor.Rental software and mobile app from Sycor, Pittsburgh, is a complete enterprise resource planning (ERP) solution built on Microsoft Dynamics 365 finance and supply chain management. The software supports rental asset management, asset procurement, rental quotes and more.

Synergy International software solutions

301-840-6500;
synergy-intl.com

Booth No. 2411

The Fusion Blazor browser-based party, event and tent rental software from Synergy International, Gaithersburg, Md., uses the same Microsoft Azure cloud as the company's core product Fusion, that has been on the market for about a decade. The browser-based version works in harmony with the user's current version of Fusion on a Mac, an iPad, smartphone, tablet and Windows PC.

SOFTWARE/SERVICES

PRODUCTS

TapGoods

TapGoods software

805-910-8002; tapgoods.com

Booth No. 2249

The modern rental software from TapGoods, Dallas, includes customer, inventory, scheduling, quotes, payments, truck routing, barcodes, staff and website features. The product features automated customizable emails and automated final and recurring payments.

Tinnacity mobile service solution

614-583-2390; tinnacity.com

Booth No. 1861

The Service iT mobile service solution from Tinnacity, Amlin, Ohio, eliminates paper service orders to allow rental and service companies to become digital. The product provides digital timecards, parts inventory, pictures, inspection checklists, quoting, asset tracking, GPS stamping and more.

Trackunit telematics solution

844-661-0340; trackunit.com

Booth No. 4092

The Spot telematics solution from Trackunit, Oak Brook, Ill., is designed to connect non-powered construction equipment and offers several enhanced and new features, the company says. The self-contained, battery-powered device offers 5G and Bluetooth 5.2 connection, doubled battery life and flexible data settings.

Wynne Systems prioritization tool

949-224-6300; wynnesystems.com

Booth No. 4370

The centralized mobile service prioritization tool from Wynne Systems, Irvine, Calif., includes automatic prioritization in conjunction with Kanban-style planning. A drill-down feature gives the manager information needed to confirm the team is servicing the right asset. An intuitive mobile app lets mechanics view assignments, track time and more.

RESOURCES

Rental Management

Starting in January 2023, *Rental Management* is available digitally on a new and enhanced platform. Readers will be able to sort through content by category, keyword, timeframe and medium. Each article, video and audio file is easily shareable with your social networks and via email.

Rental Pulse

Every Sunday, Rental Pulse is delivered to the inbox of subscribers. The newsletter covers the latest information relevant to the rental industry. Breaking News editions let readers know important industry updates as soon as possible. The last week of every month, the Monthly Beat edition highlights the most popular stories.

In Your Region

In 2023, In Your Region will be produced monthly. These newsletters are individual to each of ARA's 10 regions and include messages from regional directors, calendars of events, ARA member profiles and state association news.

Safety Issue

The Safety Issue will be a strictly digital newsletter in 2023. Don't miss out on important safety lessons, handouts and information from rental industry experts. Each month, new animated safety videos will be featured in this newsletter as well.

ARA Vendor Solutions Center

The Vendor Solutions Center is searchable by product, service or company. Once a manufacturer, vendor or supplier claims their premium listing, they have the opportunity to feature photos, videos, manuals and more.

40+ Years One Focus **RENTAL**

ARA Insurance is the leading insurer of American Rental Association members. Because rental is our only business, we have a stake in your success. For more than 40 years, we've worked with our customers to develop rental-specific coverages and improve industry safety by investing in risk management initiatives.

Coverages offered:

- » **Auto**
- » **Cyber Suite™**
- » **General and Excess Liability**
- » **Inland Marine**
- » **Property**
